

For our established subsidiary in Mumbai, we are currently looking for a

Field Service Engineer

Your Main Responsibilities
As a manufacturer of high-quality measuring systems, Sympatec is known for excellent product and service quality paired with above-average customer satisfaction. One of the keys to our success is our professional international customer service.

To strengthen our After-Sales Service, we are looking for a motivated and committed specialist. After a thorough training, your area of responsibility includes the commissioning and user training of the Sympatec instruments at our customers' places of business. Then you take care of the systems through maintenance and repair work. You will be travelling domestically and internationally, as well as providing support from your workplace.

Your Qualifications
You have successfully completed a technical or engineering education or have comparable professional experience with a technical orientation (electronics, mechatronics, etc.). With a keen interest in complex technologies, you can tailor both equipment and software to customer applications. Your education is the basis we build on. Whether you are a junior or professional – we rely on your commitment.

Required are professional skills, motivation and customer orientation. In addition, you possess the ability to work in a team and organize efficiently, but also work independently. The position requires a valid driver's license and a valid passport.

What we have to offer
At Sympatec, you will find a familiar and international culture with open, committed andhighly qualified employees. You can expect a diversified and responsible full-time job in a motivated team. Our claim to set a course with innovation and quality makes for a veryinteresting and constantly challenging work environment. You can expect a performance oriented and competitive salary, all typical benefits, commensurate with the position for a successful field service.

If you feel you are the right person for this position, we expect your detailed resume – preferably by email.

SYMPATEC

Sympatec GmbH was established in 1984 as a spin-off from the Technical University of Clausthal. For more than 40 years we are is pioneering high-tech instruments for particle size and shape analysis, serving a variety of applications in laboratory and process for customers worldwide.

With continuous innovations in laser diffraction, dynamic image analysis, ultrasonic extinction and dynamic light scattering (DLS), Sympatec makes a prominent contribution to the development, production and quality control of most challenging particulate systems; e.g. in Pharma, Food, Chemicals, Minerals, Powder Metallurgy.

Sympatec is represented in over 70 countries with about 200 employees in 20 offices and with qualified partners. As a technology leader we focus on innovation, quality and premium service. As an independent family-owned business we live up to our social responsibility with regional projects.

Our new office in Navi Mumbai provides application support, and reliable service to both existing and prospective customers across India and the South Asian countries of Bangladesh, Nepal, an Sri Lanka.
